SUMMARY

Computer Science undergraduate (B.Sc. Honours, expected 2027) with hands-on experience across AWS cloud services, serverless architectures, and full-stack web development, including production apps deployed on Vercel and AWS. Actively strengthening the MERN stack through an ongoing full-stack development course. Graduating in 2027, but available immediately for internships, trainee, or contract roles — seeking a Cloud, Full-Stack, Web, or Backend Development opportunity to apply strong fundamentals to real-world engineering problems.

EDUCATION

MIT World Peace University (MIT-WPU), Pune — **Expected Graduation: 2027**
Bachelor of Science (Honours) in Computer Science | CGPA: 7.99 / 10 (through 6th Semester) — *Pune, India*

Suryadatta Junior College, Pune — **Completed: 2023**
Higher Secondary Certificate (HSC) — Science — *Pune, India*

RELEVANT COURSEWORK

Cloud Computing • Operating Systems • Data Structures • Data Communication & Networks • Advanced Web Technologies

EXPERIENCE

InAmigos Foundation — **July 2026**
AI Web Development Intern — *Remote*

- Researched and compiled structured data on 10 Indian NGOs across education, healthcare, and women empowerment sectors.
- Audited the foundation's website via annotated screenshots, identifying key UX issues in layout and content for actionable improvements.
- Developed a multi-section AI-generated website prototype (home, about, services) using AI tools, significantly speeding up rapid development.

PROJECTS

Post-Operative Medication Tracker — Multi-User PWA
HTML5, CSS3, JavaScript, Vercel, Vercel Serverless Functions, Upstash Redis, Web Notifications API

- Built and deployed a bilingual (English/Marathi) progressive web app tracking independent post-operative dosing schedules, including a tapering medication, across two treatment tracks and four medicines.
- Designed a serverless sync layer (Vercel Functions + Upstash Redis) so multiple caregivers can update and view shared dosing records from different devices in real time, resolving concurrent writes with a last-write-wins model.
- Implemented a client-side reminder engine using the Web Notifications and Audio APIs to alert users by medicine and dose at scheduled times, plus a full dose-history log.

AWS Event-Driven Data Processing Pipeline
Python, AWS Lambda, Amazon S3, DynamoDB, API Gateway, EC2, HTML, JavaScript

- Engineered a fully automated, event-driven pipeline in which a CSV upload to Amazon S3 automatically triggered AWS Lambda for processing and storage in Amazon DynamoDB, removing manual data-entry steps.
- Developed Python-based Lambda functions with AI-assisted code generation and debugging, and exposed processed data through an Amazon API Gateway endpoint.
- Hosted a live dashboard on Amazon EC2 to display processed data in real time, integrating and testing an end-to-end architecture spanning 6 AWS services — S3, Lambda, DynamoDB, API Gateway, EC2, and CloudWatch.

Cloud-Hosted Retro Games Website
HTML, CSS, JavaScript, AWS

- Built a responsive, browser-based retro gaming website using HTML5, CSS3, and JavaScript.
- Deployed and hosted the site on AWS (EC2, S3, RDS, IAM), delivering a complete front-end-to-cloud workflow.
- Collaborated with a team using Git/GitHub for version control, managing branches and resolving merge conflicts across contributors.

TECHNICAL SKILLS

Languages: JavaScript, Python (Basics)
Cloud & Web: AWS (EC2, S3, RDS, DynamoDB, Lambda, API Gateway, IAM, CloudWatch), Vercel, HTML5, CSS3, Bootstrap, jQuery
Developer Tools: Git, GitHub, Visual Studio Code, Microsoft Office
Creative Tools: DaVinci Resolve (video editing), Figma (wireframing, UX annotation)
Artificial Intelligence: Prompt Engineering, Generative AI Tools (Claude, ChatGPT, Google Gemini), AI-Assisted Software Development

CERTIFICATIONS

- Full-Stack Web Development (Angela Yu) — Udemy | In Progress, expected completion September 2026

CURRENT LEARNING

React.js, Node.js, Express.js, Data Structures & Algorithms (DSA), Full-Stack Web Development

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Leadership, Time Management
Languages Spoken: English, Hindi, Marathi | Interests: Cloud Computing, Full-Stack Development, Video Editing, Football, Trekking
